## For Five Billion In Tax Slash

Proposal From Secretary of the Treasury Vinson Made Congress

WASHINGTON, Oct. 1.—(P)—A \$5,000,000,000 tax reduction for individuals and business in 1946 was proposed to Congress today by Secretary of the Treasury Vinson.

In the first tax cutting legislation to hit Capitol Hill in 16 years, Vinson laid before the House ways and means committee the administration's plan for easing wartime burdens on personal and corporate pocketbooks. He recommended:

1. Repeal of the three per cent normal tax on individuals, effective January 1, thus erasing 12,000,000 low-income persons from the tax rolls completely and reducing the tax liability for all individuals by \$2,085,000,000.

2. Elimination of the 95 per cent war-imposed excess profits tax on corporations, reducing 1946 corporate burdens by \$2,555,000,000.

3. An end on July 1, 1946, of the high wartime excises on such things as fur coats, jewelry, cosmetics and transportation. The excises under the regulation would return next July to the 1942 level, thus halving the tax on many of the so-called luxury items. Vinson said this would result in an annual reduction of \$547,000,000 in excise tax collections.

4. A temporary freeze of the social security tax at the present one per cent rate against pay envelopes of employees and payrolls of employers, not permitting an automatic rise to 2.5 per cent against each—set for January—so as to give Congress an opportunity to review the whole social security program.

Immediately after Vinson presented the administration program, Republicans announced they would stick by their proposal to slash individual taxes by 20 per cent "across the board."

### Confidence in Future

In presenting the administration's tax-trimming program, Vinson voiced confidence in the future of the American economy, saying "this war has demonstrated that the \$200,000,000,000 country; an annual gross national product of \$200,000,000,000 at present prices is within our reach."

But Vinson said the big nation—

## Sister of Mrs. Lierman Injured

Information received in Sedalia this afternoon was to the effect that Mrs. Henry J. Brummerhoff, former Sedalian, now of St. Louis, was injured in an automobile accident about 9:45 o'clock Sunday night, which occurred one-half mile south of Cape Girardeau, Mo., on highway 61. The information did not mention Mr. Brummerhoff, and it is believed he was not injured.

Mrs. Brummerhoff, sister of Walter Lierman, 908 West Seventh street and Roy Lierman, 709 East Fifth street, was riding in an automobile believed to have been driven by Edward Griffin, 66, also of St. Louis, who is in a critical condition in a hospital in Cape Girardeau.

Mrs. Griffin received cuts and bruises, and Mrs. Brummerhoff's injuries were said to be slight lacerations and bruises.

It was not said what caused the accident nor how many automobiles were involved.

## Cars Damaged, Rear End Crash

Considerable damage resulted to two automobiles about 1:10 o'clock Sunday morning when one car crashed into the rear of another a short distance north of Flat Creek Inn on Highway 65. Cpl. Raymond A. Swezey, Sedalia Army Air Field, riding in the car of Mr. and Mrs. Ben Staus, Springfield, received a laceration and contusion on the back of his head, but his injury was not considered serious.

The Staus car was headed south and the 1940 Dodge coupe owned and driven by Leonard Hale, 1210 South Kentucky avenue, crashed into the rear of the 1927 Buick sedan of Staus. The rear of the Staus car was smashed in while the front end of the Dodge was practically demolished.

Cpl. Swezey was treated at the emergency station in the old post office building and then taken to the base hospital at the S. A. A. F.

State Troopers Lloyd Amos and Pete Stohr made the investigation.

## S-C Students Place Wreath on Mrs. S. E. Cotton's Grave

As is the annual custom of Smith-Cotton high school each October 1, birthday anniversary of Mrs. Sarah E. Cotton, who donated the school grounds, a representative group of students today placed a wreath on her grave at Crown Hill cemetery. Made of fresh, yellow dahlias and everlasting magnolia leaves, tied with yellow ribbon, the wreath was purchased with money donated by the students.

## Rainiest September Since 1866

ST. LOUIS, Oct. 1.—(P)—The September just closed was the rainiest in St. Louis since 1866, the weather bureau reported. Total precipitation for the month was 10.02 inches. It rained every day the last ten days of the month.

The advent of October made little change in the weather outlook. More rain was forecast for today.

## Possible Eight Million be Unemployed

In Prediction John W. Snyder Still Is Optimistic

WASHINGTON, Oct. 1.—(P)—Reconversion Director John W. Snyder said today there may be 8,000,000 unemployed by next spring with "high unemployment" persisting through 1946.

He made this prediction in a 46-page report to the president and Congress. It was his fourth report. He labeled it "Three keys to reconversion—production, jobs, markets."

Snyder's forecast was based on the contention that job-giving will be unable to keep pace with a prospective billion-a-month demobilization.

### Proposal for Team Work

But he was "firmly optimistic" about the future, provided the nation works as a team. He asserted:

1—Prompt, peaceful settlement of labor-management differences is a reconversion "must."

2—Congress should act promptly on those four points in the president's program calling for "full employment, transitional tax adjustments, broadening and raising unemployment compensation and raising minimum wages."

(Three tax steps recommended were: Repeal of the 3 per cent normal tax on individuals, repeal of the excess profits tax, effective January 1 next, and setting a definite date for reducing excises.)

3—The executive branch "must and will be as vigorous in its policies and programs to solve peacetime problems as it was in solving wartime problems."

4—Cooperation and teamwork among "management and labor, business and farmer, federal, state and local governments" is indispensable, if there is to be a rapid expansion of peacetime production, jobs for all those willing and able to work and stable markets.

## Message on Atomic Bomb Will be Sent

President is to Present it This Week to Congress

WASHINGTON, Oct. 1.—(P)—President Truman will send a message to Congress early this week on what he thinks should be done with the atomic bomb secret.

The White House made this announcement today shortly after a house appropriation subcommittee which recently toured U. S. military installations around the world left a nine point recommendation with the president.

Among those recommendations was one that the secrets of atomic pending study of the development by a commission representing the scientists who directed the project, the joint chiefs of staff, state energy should be kept to ourselves department and Congress.

### Secrecy Maintained

The subcommittee, headed by Rep. Snyder (D-Pa.) handled the appropriation of funds "for, and maintained the secrecy of, the atomic bomb project" the group reported.

Another point made by the subcommittee, not directly connected with the atomic bomb, was that the war department is sustaining a loss of prestige among the troops in certain areas abroad because of the apparent lag in the discharge program.

"It is essential" said a memorandum left with the president, "that the demobilization program be expedited. GI Joe has not only been a good soldier but a good ambassador for the United States. He deserves definite, straightforward statements from the war department on what to expect and when."

"If plans are changed or announcements modified, he should be told 'why'."

## Approval for Postwar Roads

WASHINGTON, Oct. 1.—(P)—Authority to begin a \$1,673,250,000 federal postwar roads program won unanimous approval today from the senate postoffice and post roads committee.

### Committee Approves McGraw Nomination

WASHINGTON, Oct. 1.—(P)—The Senate judiciary committee today approved the nomination of Governor J. Harold McGraw of Rhode Island to be solicitor general of the United States.

Chairman McCarran (D-Nev.) said the nomination will be taken up in the Senate Wednesday.

## The Weather

## Many in 128th Field Artillery Arrive Home

Discharged Service Men Report Back To Draft Board

On the streets of Sedalia Sunday and today a large number of familiar faces have been seen, showing a little age, but covered with smiles. And those faces are of Sedalia and Pettis County young men who left here in December of 1940 to enter federal service with the 128th Missouri National Guard.

These boys landed in the United States about a week ago and the last of the week received discharges at Jefferson Barracks and then immediately boarded trains and buses or met relatives with private automobiles and hurried back to the "home town." Up and down the avenue, this morning, these same boys are greeting old acquaintances and shaking hands, exchanging experiences with other Sedalia boys who were also in the service and returned home before they did.

### Over Hundred Back

According to several the boys returning the past weekend numbered more than one hundred. Several of the "Old 128th" members who were separated from the batteries after entering federal service, arrived a few months ago on "points," while other who were sent home before the large group arrived home with their honorable discharges as far back as last June.

Today the Selective Service office has seen a large number of men reporting back to their "draft" board as ordered by the army upon receiving that long waited discharge. It is more of a formality to register, because they must have their record kept intact, but they don't expect to and will not be called back into the service.

Many of these same boys are walking out of the Selective Service office and into the office of County Recorder John Ryan and are having their discharges recorded, something that each boy should do for his own protection, against the possible chance of losing his war record.

## Transport Planes to Bring Troops Home

SHANGHAI, Oct. 1.—(P)—At least 250 transport planes will be shuttling American troops into Shanghai within ten days so they can board ships reaching home before Christmas, Brig. Gen. J. C. Kennedy, commander of the advance section, air forces headquarters in China, announced yesterday.

## USO Plans to Operate Another 18 Months

CHICAGO, Oct. 1.—(P)—With demands for its services up 40 per cent over the peak war load, the United Service Organizations today planned to continue operations at least another 18 months.

### Girl Scouts Leaders To Meet On Tuesday

The Sedalia Girl Scouts Leaders Association will hold its regular monthly meeting at 1:30 o'clock Tuesday afternoon at the Central Business College, with the president, Mrs. Harry Lambirth to preside assisted by Mrs. Cecil Owen, vice president.

## Lt. Connor of Wacs Reunited With Brother, Freed Prisoner

By Sergeant Robert V. McMenimen, M.C. Combat Correspondent.

MANILA, P. I.—(Delayed)—Four years of anxiety ended here for WAC First Lieutenant Elinor J. Connor when she ran into the arms of her brother, Marine Private first class Dennis C. Connor, 26, veteran of the valiant defense of Wake Island in December, 1941.

Connor, son of Mr. and Mrs. James H. Connor of LaMonte, Mo., walked out of a Jap prison camp at Nagoya September 6 and joined American occupation troops in the area. He enlisted in the Marine Corps December 27, 1939, and was taken prisoner by the Japs on the fall of Wake Island December 28, 1941.

After being flown to Okinawa, Connor was transferred to a camp for liberated United States prisoners outside Manila. On the morning of the second day at that camp, Connor received a message from his sister.

Lieutenant Connor knew of her brother's liberation, but she did not know the location of the camp to which he had been transferred. Her message was delivered to the Leatherneck through the aid of the Red Cross.

Connor, who last saw his sister in St. Louis in 1940, did not know she had enlisted in the WAC three years ago, nor that she currently was stationed in Manila. It was

not until his liberation that Connor learned of the existence of a women's army unit.

"The marine could not accustom himself to the idea of women being a part of the armed forces."

Exchange of Experiences

"You aren't really in the army?" he asked.

"Yes, and I can prove it," his sister retorted. "I once did 29 days of K. P. duty."

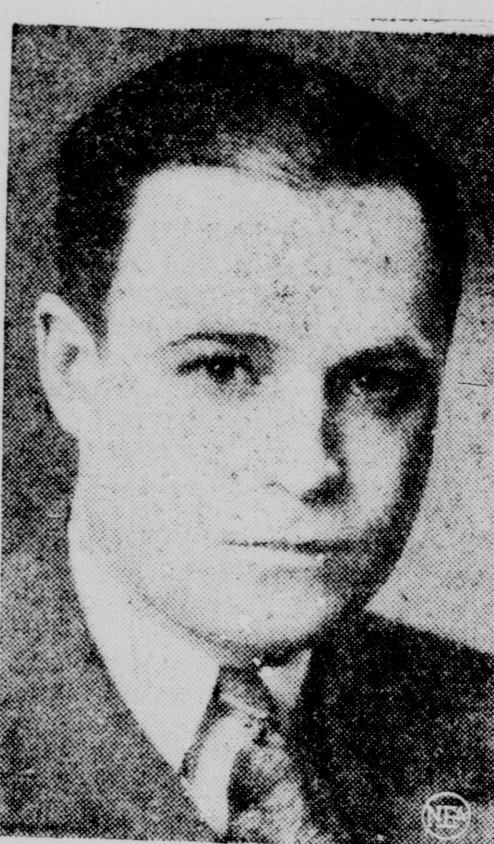

Connor, nonplussed, just hook his head and smiled.

The brother and sister reunion took place at the signal center of headquarters of the U. S. army forces, western Pacific, where Lt. Connor is assigned.

Following the initial, wordless excitement of the long delayed meeting, brother and sister swapped experiences and information on friends and relatives in a torrent of conversation. Connor, scheduled to start the return journey to the United States two days after the reunion, stayed with his sister for the evening before returning to camp.

Lieutenant Connor entered the army September 9, 1942. She has served nine months in the Pacific theater, including duty on New Guinea. With a total of 55 points she is eligible for discharge and plans to return to the states for a family reunion as soon as possible.

## To U. S. Post

J. Howard McGrath, above, now serving his third term as governor of Rhode Island, has been nominated by President Truman to be Solicitor General of the U. S., succeeding Charles Fahey, resigned.

## Admiral Ernest J. King Plans to Retire

LORAIN, Ohio, Oct. 1.—(P)—Admiral of the Fleet Ernest J. King plans to step down from his job as head of Uncle Sam's Navy about the first of the year.

The Navy commander-in-chief disclosed this yesterday as he returned to his home town to take part in its victory celebration and received one of the most tumultuous welcomes in the history of Lorain.

He said his relief had not been decided upon.

## Docket Set in Criminal Court

Fines or Terms in Jail Given Several Of Defendants

The criminal court docket for the October term was set this morning in circuit court with the dates of several trials fixed and pleas of guilty being made by other defendants.

Three persons charged with driving automobiles while intoxicated appeared before the court and pleaded guilty. One defendant paid a \$50 fine and costs and two others were sent to the county jail when they were unable to pay their fines.

Lawrence Dawson paid his \$50 fine and costs, while Charles Bealer was sentenced to serve fifty days and given credit for the time already served since August 15. Carrol Lane was fined \$50 and costs and committed to jail when he could not pay the fine. All three defendants surrendered their drivers' licenses.

Harvey R. Goodpasture, charged with selling liquor without a license, pleaded guilty and was fined \$100 and costs.

The case of Kenneth Ralston, grand larceny, was continued because defendant is a fugitive from justice.

George Hall, Herbert Carter and Mitchell Jackson, burglary and larceny, pleaded not guilty. Their case has not been set for trial. Washington Shirley, driving an automobile while intoxicated, set for October 8.

Maude Dyer, selling liquor without a license and Charles Sivile obtaining money under false pretenses, both cases set for October 10th.

Barbara Osborne, charged with escape from jail, set for October 16th.

Billy West, tampering with an automobile, set for October 18. Lawrence Keele, U. S. navy, charged with first degree robbery, set for October 30.

Mary Clark, grand larceny, George Mouldin, receiving stolen property; Marylan Glasgow and Nat Newbill both charged with selling liquor without a license. All cases set for October 31.

## Tire Situation More Critical

The Pettis County War Price and Rationing Board, through the tire panel announces the tire situation has become more critical. Tire applications were acted upon this morning by the panel, but not all applicants were "lucky" to reach the top and come within this week's quota.

The board passed on several applications which have been on file with the board since last August. The panel must be governed in its issuing of tire certificates by what is known as the Essential Preference group.

As fast as a quota is received the board immediately acts in an endeavor to clear up as many applications as possible. The local board has found it necessary to allow but two tires to an applicant and only then when it is shown that it is an extreme necessity.

### Ten Thousand More Troops Are Arriving

By The Associated Press  
More than 10,000 troops from Europe are scheduled to arrive in the United States today aboard eight troop-carriers docking at three east coast ports.

More than 8,000 men, aboard three ships, are due in New York, more than 2,000 in four vessels at Boston and approximately 100 on one ship at Newport News, Va.

## Ready Replies Are Made by The President

If Mistakes be Made He Quickly Clears Them up

By James Marlow

WASHINGTON, Oct. 1.—(P)—President Truman talks fast. Sometimes, too fast. He's made mistakes. He's had to go back and clear them up.

Close friends of the President admit he's made mistakes by his bang-bang method of answering questions.

But they believe he'll do better in the long run by quick and frank answers even though he makes mistakes.

Since going into the White House last April, Mr. Truman has given trigger-quick replies to questions at his news conferences. He's been praised for this. He's been criticized, too. The criticism came after he made statements that needed clearing up later.

He hasn't—yet—tried to parry questions the way President Roosevelt, an expert question-turner, did.

His years in the White House gave Mr. Roosevelt plenty of experience in brushing off—by wise-crack or some other means—questions he chose not to answer.

"That's an iffy question," was one of his favorite devices for ducking a direct answer to a question about something that hadn't happened, but might.

This was another: to start talking about a man who had strawberries for sale.

Once Mr. Roosevelt—still ducking—told a questioner to go stand in a corner with a dunce cap on.

Answers Rapidly Given

So far Mr. Truman's technique has been rat-a-tat: Answers the question, most questions, fast and

## Versions on Big Loan Conflict

WASHINGTON, Oct. 1.—(P)—Sharply conflicting versions of the role played by the late President Roosevelt in financial transactions of his son, Elliott, were released today in Congress.

House ways and means committee Republicans declared—but Elliott denied—that:

1. Young Roosevelt's father "played an important part" in the \$200,000 loan his son obtained in 1939 from John A. Hartford, grocery chain executive.

2. The late president "initiated" settlement of the loan by former Commerce Secretary Jesse Jones in 1942 for \$4,000.

Elliott testified that his father knew of and approved these transactions, but did not promote them. He said Hartford consulted the late president for only one reason: to be sure there were no "possible political implications" which might embarrass Mr. Roosevelt.

The Republicans argued that the late president helped arrange the loan and instigated the settlement. They interpreted statements by Jones and Hartford as support of their opinion. Hartford was quoted as saying he made the loan after talking by phone with the president because he thought he was "on the spot" and did not want to "incur the enmity" of Mr. Roosevelt.

The divergent views were contained in more than 1,000 pages of testimony filed with the house by the ways and means committee, and in an accompanying minority report by the Republicans.

The Democrats did not file a report discussing the role played by Mr. Roosevelt. They simply voiced agreement with a Bureau of Internal Revenue recommendation that Hartford be allowed a tax deduction on his \$196,000 loss. (Approximately \$35,000, committee members told newsmen). The Republicans sharply dissented on this point, too.

## Banks Under Order Of MacArthur are Seized--Seek the Imperial Gold

By Russell Brines

TOKYO, Oct. 1.—(P)—American occupation authorities today began a quest for untold millions of dollars in gold, silver and currency, which Japan was believed to have wrested from the lands it overran in its try for world domination.

The search paralleled other probes into imperialist war-financing, made possible through General MacArthur's bold, secret seizure today of 21 government-controlled institutions in Tokyo and six other large cities, and the ousting of their officials.

The Bank of Japan, the nation's largest financial institution, one-quarter owned by the Japanese imperial household, was closed by an order of the Allied command.

Probably Open Tuesday

It will open tomorrow, said Col. R. P. Kramer, MacArthur's economic and scientific chief, "if the Japanese provide full cooperation" in locating the assets of the seized institutions which had office space in the Bank of Japan building.

Bank officers pleaded last night that they had had insufficient time to produce the requested assets and records. They had received instructions from the finance ministry earlier, however, to have the requested material on hand by last night.

Assured Funds Safe

American troops on guard around the bank assured depositors, many of them women sobbing in fear that they might lose their life savings, that their funds were safe.

Two other banks, closed by MacArthur—the Yokohama Specie bank and the Hypotek bank—reopened today with Allied permission after a check of their records.

Allied headquarters said no trace was found in the three institutions of "hard money" removed from the Philippines and the Netherlands East Indies during the Japanese occupation.

Some gold and gold stocks earmarked for Siam and Indo China, and some gold set aside for the Federal Reserve Bank of North China were reported found in the Bank of Japan.

The Japanese denied that the bank of Japan held any foreign money, denied any knowledge of a possible hiding place, and maintained they had no control over financial activities of field military commanders.

The militarists, the bankers said, had the power to either sell their looted assets and place the money in a special disbursement fund of the finance ministry, or "keep the assets for themselves."

Shibusawa declared he knew nothing of reported transfers of gold and currency from the Philippines to Japan.

The bankers gave Colonel Kramer an estimate of the gold reserves of the Bank of Japan, which they said were Japan's total reserve except for small amounts earmarked for shipment to Indo China and Siam, but the figure was not disclosed immediately.

Kramer previously had announced that the finance ministry estimated Japan's gold reserve at \$125,000,000.

Deny Knowledge of Imperial Funds

The bankers denied knowledge of full details on imperial household funds or where the imperial gold deposits might be located, but they disclosed that the household owned approximately 25 per cent interest in the Bank of Japan, and the Japanese government owned a 55 per cent interest.

Meanwhile, the newspaper Asahi reported that Kenji Kodama, former head of the Central China Development company, one of the firms ordered closed, had been appointed new president of the central liaison office, the Japanese agency that receives and passes on to the proper department the directives of the Allied command.

Another Heart Attack

# Merry-Go-Round

by Drew Pearson

WASHINGTON, Oct. 1.—Last week this column revealed that two military intelligence colonels in Washington warned their superiors that the Germans were about to launch the disastrous Belgian Bulge attack in December 1944, and urged that General Eisenhower be put on guard. It was also revealed how this advice had been ignored with the result that American forces in the Ardennes forest were caught off-guard and their thin line of defense wiped out, resulting in 60,000 casualties and weeks of further warfare.

An additional chapter to this tragic blunder can now be told.

On Dec. 10, 1944, six days before the German surprise attack, Col. B. Albert Dickson, chief of intelligence for the Second army, wrote a strong report to his superiors warning that a German offensive was coming. His report, labelled "No. 37," is in the files of the war department and is available to any senate committee wanting to get the real truth regarding this blunder which cost so many American lives.

Colonel Dickson reported that from interviewing captured German prisoners, he was convinced they were planning a big attack. He reported a new spirit of jubilant enthusiasm on the part of the Germans he interviewed, a new determination to escape and go back to fight in the offensive. He even reported that the Germans were training men to infiltrate behind American lines as American soldiers.

It will be remembered that later Nazi troops were found dressed in American uniforms behind our lines.

Colonel Dickson even prepared a map showing villages where the German reserves were billeted in preparation for the Belgian Bulge attack. And he urged that they be bombed out immediately. This recommendation was never followed. If it had been, the story of tragic American losses would have been different.

Instead, the 12th army group wrote a report on Dec. 12, refuting Colonel Dickson's report of Dec. 10. It replied that such an attack could not happen.

Later, on Dec. 16, Shaeff, the headquarters of General Eisenhower, wrote a G-2 "appreciation," stating that a German surprise attack could not happen. However, Dec. 16, the date of this report, was the actual day it did happen.

So, later in the day, Shaeff hastily withdrew this "appreciation" and substituted three other pages in its report. The original report, therefore, may not be available to a congressional committee. However, if the senate asks for the "after action" report on the Bulge battle, it will find that it contains in black and white the story of how the army was warned the Nazi attack was coming and was even urged to bomb the waiting German reserves, but completely ignored that warning.

NOTE — U. S. casualties in the Bulge were 60,000 compared with

## MAN HAD BRICK IN HIS STOMACH FOR 10 YEARS

One man recently stated that for 10 years he felt like he had a brick in his stomach. This feeling was due to the lump of undigested food he always had inside of him. He was weak, worn out, headachy, swollen with gas and terribly constipated. Recently he started taking ERB-HELP and says the feeling like a brick in his stomach disappeared the second day. Bowels are regular now, gas and headaches are gone and he feels like a new man.

ERB-HELP contains 12 Great Herbs that cleanse bowels, clear gas from stomach, act on sluggish liver and kidneys. Miserable people soon feel different all over. So don't go on suffering! Get ERB-HELP. Sold by all Drug Stores here in Sedalia.—Adv.

## LOVE BRAVES AN ATOM BOMB

by OREN ARNOLD

ESCAPE TO ARIZONA

XIII

CAROLYN was at a telephone. "Hello! Hello, Ken? Listen, Ken, I've got to talk to somebody. I—I want you to be my guest at lunch. . . . No, I'll pay or I won't go! I asked you first, and I'm famished."

They met in Grosso's, a favored side street spot, and as she herself waited, Carolyn was full of conversation. She talked between salad bites.

"Ken, don't ever tell a soul," she admonished, "but my little trick worked to a T. My lunch was right. Somebody did try to get that shipment. Robbed the freight train and stole the dummy box!"

He was excited. "I saw the papers this morning. Tried to call you. Gosh!"

"Yes, it's a good thing we substituted rocks. Bob is so grateful he was in tears. The stuff—the chemicals I mean, were rather valuable to him. Ken, will you take pay for that? A reward?"

His lips tightened. She hastened on.

"I know you won't. I didn't mean to hurt you, Ken."

"Carolyn, I'd do anything for you. Always!"

She dropped her eyes, and answered that in a low tone. "I know it. Now I think I'd better tell you something. Something important."

"Surely."

"Ken, I love Bob Hale. I'm—off the deep end!"

Her eyes filled with tears then and he saw it when she lifted her head. Ken didn't say anything for a long while, but his face was a study. He had stopped eating. Finally he nodded ever so slowly. "All right," he whispered. "I'm glad you told me, Carolyn. These things—have to be!"

Truman Deserts FDR

How drastically Harry Truman and Attorney General Tom Clark are deserting one of Franklin D. Roosevelt's policies was indicated by a recent incident which few people noticed.

One of the great battles Roosevelt fought was against the big utility companies. But the other day, a judge appointed by Truman to one of the most important courts in the country handled a case, even after his confirmation, on behalf of one of the big power companies. He is Judge Wilbur Miller, recently appointed to the U. S. Court of Appeals for the District of Columbia, which handles more important test cases than any other appeals court in the nation.

However, even after Miller was confirmed by the senate, he appeared last week before the federal power commission on behalf of the Kentucky Natural Gas Co.

This makes it unanimous. For both of the other two judges Truman appointed to this important appeals court, ex-Senator Bennett Clark of Missouri and Barrett Prettyman, also have been attorneys for the big power companies or have been anti-public power.

NOTE — Bennett Clark was defeated for the senate by the people of Missouri last year after many bitter years of isolationist opposition to Roosevelt's foreign policies. However, he worked valiantly for Truman's nomination at Chicago.

Movie Moguls

Last week a galaxy of the most powerful moguls of the movie world paid a visit to Attorney General Tom Clark. Probably no more high-priced men ever entered the attorney general's office at one time before in history. The group included:

Barney Balaban, head of Paramount; Albert Warner of Warner Brothers; Nick Schenck of Metro-Goldwyn-Mayer; Spyros Skouras, head of 20th Century Fox and Peter Rathbone, head of RKO.

They entered Clark's office, laid a brief on his desk and departed. The visit lasted exactly six minutes.

Since the salaries of these movie moguls average around \$200,000 a year each without bonuses or stock dividends, and since they were accompanied by a battery

## Rectal Ailments Cause Many Diseases

Years of Clinic experience covering thousands of cases definitely prove that when piles are corrected many other associated troubles disappear. There are scientific reasons for this which every pile sufferer should know. The Dr. O. A. Johnson Clinic established over 30 years has an outstanding record in the non-surgical treatment of Piles. By their mild, inexpensive office treatments, uncomplicated piles are corrected in an average time of less than 2 weeks.

No hospitalization is required. If you have piles or other rectal ailments, investigate the methods used. You can do this either by writing to the Clinic, 1324 I Main St., Kansas City 6, Mo., for a copy of their free book or by phoning them. Long Distance Collect Harrison 2846, Kansas City, for an appointment. The highly trained staff at the Clinic will give you a thorough examination at no cost to you. Many men and women of this community are former patrons of the Clinic. Do not neglect your health—either write or phone the Clinic today.

They understood each other; they didn't need to talk. Both knew Ken had loved her. Both hadn't ever said so in words.

"Ken, you're the nicest somebody in the world."

He nodded again. "I understand. I won't forget. In fact, Carolyn, I already knew."

"You knew?"

"Yep. A man isn't blind. You let little things slip. And no woman would do what you have been doing for him unless—unless—Well, power to him! And Carolyn, I'll always be around. Always!"

She wanted to cry then. "Eat your lunch," he commanded, practically. "I think you need it. You're jittery."

"I do need it. But I'm going away."

She suddenly squeezed his hand. "A million thanks, boy friend. And goodbye!"

She got up abruptly and left him, paying both checks at the desk. He thought he understood why; her eyes had gone misty again. He didn't try to follow her.

SHE went immediately to find Dr. Hale at state police headquarters, but both he and Miss Sormi had gone. In a taxi again, then, she raced back out to the laboratory.

She had no idea what to expect next but she knew she had to continue her rather desperate, audacious action. Bob, of course, had told Leana Sormi about Carolyn's outwitting the train robbers.

"She'll know I'm wise to her even if Bob isn't!" Carolyn half-whispered, to herself. "At least she'll suspect plenty and be scared. And she'll fight back somehow!"

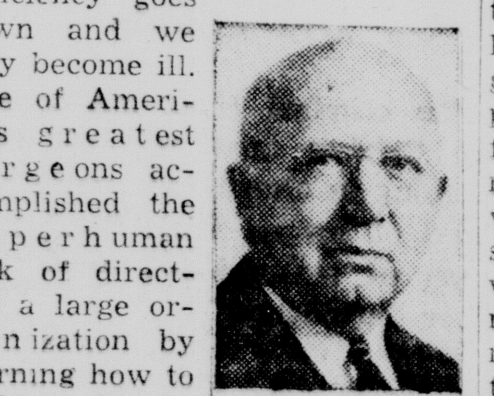

The indefiniteness of that reasoning was itself enough to cause alarm. She couldn't quite decide what to expect of Leana Sormi. Maybe, she told herself once, she was imagining all this; maybe Leana was honest and not in-

### Rest and Hobby Combat Tension

By WILLIAM A. O'BRIEN, M. D.  
Written for NEA Service

Nervous tension results in irritability and contracted muscles. These are warnings to change our way of life and learn how to relax. When we are tense, our efficiency goes down and we may become ill. One of America's greatest surgeons accomplished the superhuman task of directing a large organization by learning how to relax. To be certain that he

Dr. O'Brien

was not overdoing, he took a nap every day after lunch; this broke the tension for the day and enabled him to carry his heavy responsibility.

A great many people find their jobs disagreeable; although they realize they have to carry out their assignments, friction and tension reduce their efficiency. If your job is beyond your ability, you had better admit it and try to find the kind of work you can do best.

Some people never learn the importance of rest. Our country has many places where we can enjoy ourselves through physical activity, but few where we can rest.

Sleep Is Best Cure

Nervous tension often results in chronic fatigue. A good night's sleep is the best cure for irritability and contracted muscles from over-attention to our work. Students do better in school when

of legal counsel probably drawing \$50,000 to \$100,000 including travel, \$50,000 to \$100,000 annually each, it was estimated that this six-minute session, including travel time from New York, cost \$25,000.

The brief they handed Clark opposed the government's anti-trust suit against the movie industry.

Truman Batters FDR

In the White House about the same time, Donald Nelson, former WPB boss, called on his old friend Harry Truman. Nelson now represents the Independent Motion Picture companies, such outfits as Walt Disney, Frank Capra, Walter Wanger, Sam Goldwyn, Dave Selznick, who, when they produce pictures, can't get them shown because the Big Five own and control the theatres.

They claim that the Big Five have one of the tightest monopolies in the country, the equivalent of a newspaper owning all the newstands in a city so no other paper can be sold.

Twice before, the justice department has started to break up the movie monopoly, but each time outside higher-ups in the persons of Jimmy Roosevelt and Harry Hopkins have intervened.

So Donald Nelson inquired of Truman just where he stood on the motion picture case, and whether the compromise consent decree proposed by the movie moguls, which hushes the whole thing, was in conformity with Truman's past record on anti-trust.

The president replied emphatically that it was not. In this case he seemed ready to go further than FDR. He said he wanted no compromises.

"The case will go to trial," he said, "or else."

voled in treachery at all. It something deep in Carolyn rebelled at that idea.

She kept her taxi waiting while she located Bob in his office. "Carolyn! I was wondering where you—"

"Get your hat at once!" she ordered. "And coat. Have you any money?"

He looked at her with fresh surprise, but he stood in awe of Carolyn Tyler now. He didn't question her at all. He had a few hundred dollars in a small office safe, and got that. They departed in her taxi without speaking to anyone.

Presently, he sat back and smiled at her. His old, beloved tone of teasing suddenly reappeared, the first hint of personal feeling toward her he had shown in days. Carolyn's heart leaped. "If it wouldn't be presumptuous, miss, I'd like to know what brew you are brewing now."

"You will," she flashed back. She led him meekly from the taxi to the plane when they reached the airport. Her hired pilot came out, saluted genially. She motioned him to his seat and in a moment he had the motor roaring.

"What's all this?" Bob wanted to know. But he saw that she was still eager and smiling. "Am I supposed to take a sky ride?"

"Look in there," she pointed. "In that box, Bob, is your precious substance. I have had it transferred out here."

He was abruptly serious again. He went inside to touch the box. "But, Carolyn—"

They had to shout above the motor's roar. Somebody had closed the cabin door, and Bob saw her signal to the pilot. The roaring multiplied. The ship quivered, began to roll.

Bob's chin dropped. He was standing stooped over in the low-ceilinged cabin there, and he gripped the back of a seat.

Carolyn smiled again reassuringly. "Sorry, Bob, but just take it easy. The pilot's mine. I hired him and he is doing only what I ordered!"

"Sit down!" she shouted, happily this time. "It just had to be this way. We are going to Arizona!"

## 'Red Devils' Opened Way Into Metz

By NEA Service

Planting one terrific punch after another, the Fifth Infantry "Red Diamond" division lunged 700 miles across France to spearhead capture of the fortress city of Metz, then help Gen. Patton write off the Battle of the Bulge.

In its whirlwind drive across France, the "Red Devils," as the Germans called the Fifth doughboys, traveled so fast they had to halt five days for supplies to catch up.

When it reached the Moselle, the Fifth was given the mission of establishing a bridgehead on the east bank in preparation for the Third Army's attack on Metz, which never had been captured by a frontal assault, although various armies had been trying for a couple of thousand years. The Fifth established the bridgehead after some of the most furious fighting of the war. Later, working with the 95th and 80th divisions, it took the city after 10 days of furious battle. During the final operations of this assault, the Fifth took 4133 prisoners, killed an estimated 1048 and wounded 4,000 more of the enemy.

In December, when the Germans under Von Rundstedt broke through in the desperate Ardennes offensive, the Fifth was one of the units used by General Patton to attack the flank of the Bulge. A month later the Red Devils were fighting around Prieux, France, and then swung into Luxembourg. War's end found the Fifth in Czechoslovakia.

War contracts have been cut

Many of Western Electric's war contracts for electronic and communications equipment have been canceled outright. Others have been reduced. By the middle of September, unfilled war orders were only about 40 per cent of those on hand August 1. Further cancellations are indicated.

Reconversion involves the complete dismantling of many war shops and the reinstallation of equipment for peacetime manufacture. Every available mechanic capable of performing this kind of work has been engaged on a seven-day basis to shorten reconversion time—speed up the production of telephone instruments and switchboards and cables—and create the maximum number of peacetime jobs.

Telephone production is increasing

Telephone instruments are relatively easy and quick to make. Production is currently at the rate of 25,000 per week—but these, of course, must be divided among telephone companies all over the country. The rate is being rapidly in-

creased, but capacity production must await complete reconversion.

More important than telephones, in view of those waiting for service, is the lack of central office switchboards and dial apparatus, and telephone cable.

From radar to switchboards...

During the war, three of Western Electric's four switchboard shops and one of its two exchange cable shops were completely dismantled and the space used for the manufacture of radar and other special products. Now every step is being taken to reconvert this space as fast as war contract cancellations permit. Nearly two thirds of the 246,000 people waiting for service in the Southwest are waiting because of lack of central office facilities and cable. Such equipment is already being manufactured, but full capacity production cannot be reached until reconversion has been completed.

Turning the manufacturing corner...

Thus, as telephone factories swing back to making peacetime equipment, we are definitely turning the corner toward the time when we can get all the telephones, cable, and central office apparatus we need so much. It will take time to catch up with 246,000 orders now on hand, of course. But we are doing it as quickly as we can, and nothing will please us more than to get back to our standard of furnishing service whenever the customer requests it.

**An Hour of This is Torture**

One of many methods of Jap torture practiced on Allied prisoners is demonstrated above by Capt. Gus C. Francis of Salt Lake City, Utah, who was captured at Bataan in April, 1942. A plank was placed behind his knees and he was forced to kneel with arms outstretched. Then two rocks were placed on his palms and he was forced to stay in this position for an hour. Every time he moved he was beaten. He is pictured at Kunming, China.

# POINT REWARD FOR USED FATS DOUBLED

4 points instead of 2 for every pound!

EVERY one of you housewives in America, in your own kitchen, can speed the return of larger supplies of soaps and all the peacetime things you have been waiting for so long. You can do it by saving more used fats... every drop you can scrape or skim. It's as urgently needed as ever. So keep doing it, won't you?

You women of America have done a magnificent job of saving used fats during the war, but victory has not ended the need. The fat supply for the manufacture of soap and other long-wanted products is millions of pounds less in 1945 than it was in 1944. That is why the government offers four ration points instead of two for every pound of used fats you turn in.

By skimming, scooping and scraping every last drop of used fat, you can help increase your own home supplies of soaps, soap flakes and powders more quickly. And not only soaps. But the nylons, cottons, electric washers, irons, refrigerators, automobiles and hundreds of other peacetime products we've all been waiting for.

The fats saved in your kitchen are urgently needed to help get peacetime goods back into production... and back to you... more quickly. So won't you keep up the good work even though the war is over? You'll help to fill your own needs for soaps and the civilian goods you're dreaming of. Remember, every drop of used fat is still vitally important. Keep saving, won't you?

# Total of the Workers off Jobs Reduced

## Power and Oil Strikes Still on; Other Threats

By the Associated Press

A strike of AFL electrical workers shut off hydroelectric power to 16 large Texas towns and about 25,000 rural customers today.

The dispute involved a comparatively small number of employees, approximately 140, as the national total of persons away from jobs because of labor controversies fell to about 352,000, lowest in more than a week.

But there were threats of new stoppages within the near future.

The power strike was at the four generating units of the lower Colorado river authority in central Texas. Harry Bernhard, union business agent, said the dispute had been in progress for five years and the strike was called because the authority "refused to recognize the right of employees to organize and bargain collectively."

Max Starcke, authority general manager, said the strike was called without notice and there had been no wages and working conditions.

### Two Strikes Settled

In Washington, the CIO oil workers union announced settlement of strikes at two small Detroit plants. The union called this a "first break" as conciliation conferences were resumed with management in an effort to settle the eight-state oil refinery strike involving more than 36,000 workers.

The Detroit plants are the Keystone and Aurora refineries. The workers will return at 17 1/2 cents an hour more pay and on Nov. 1, when the refineries shift from a 48-hour to a 40-hour week, the employees will receive an additional increase of 35 cents an hour.

O. A. Knight, union president, said the 35-cent boost would provide the 30 per cent wage rate increase which the union seeks nationally.

The Pennsylvania-West Virginia coal mining dispute, in which 35,000 are off the job, remained deadlocked. The negotiating committee of the National Bituminous coal operators repeated its demand that the strikers resume work before the committee would discuss the dispute.

Directly involved in the controversy are nine foremen and supervisory employees who organized into a branch of the unaffiliated United Mine Workers of America and demanded collective bargaining rights.

Another new strike kept 13,000 workers from their posts in five General Motors corporation Frigidaire plants in Dayton, Ohio, where production of refrigerators halted by the war, was resumed July 25.

A CIO union spokesman said the strike was a protest against "unjustified indefinite suspension of four workers." The company declined to comment.

### Two Thousand Idle

KANSAS CITY, Oct. 1.—(P)—Two thousand oil workers here are idle today, following the walk-out yesterday of employees of the Phillips refinery in Kansas City, Kansas.

Company officials estimated that the shutting down of the Phillips plant and the Sinclair refinery, which closed Saturday, would cut gasoline production here by at least 25 per cent.

Both company and union officials here stated the Phillips shutdown was carried out in an orderly manner, although no agreement on procedure had been made before the plant closed down.

### Denver "Buck" Miller Back

Denver "Buck" Miller, former Sedalia Democrat-Capital Golden Gloves flyweight champion, arrived Saturday to spend a few days visiting with his mother and other relatives in Sedalia. "Buck" was discharged from the army last June with 121 points and is now residing in St. Louis with his wife and daughter.

## No Decision by Foreign Ministers

LONDON, Oct. 1.—(P)—The council of foreign ministers, still seeking a foundation for Europe's peace structure, made a last minute effort to reach agreement today after the Soviet Union reportedly refused to sign conference documents unless her Balkan treaty demands were met.

Delegates remained in session until after 1 a. m. debating the same subject which has been argued for more than a week.

Soviet Foreign Commissar V. M. Molotov's insistence that only Britain, the USSR and the United States be allowed to design the peace pacts with Romania, Bulgaria and Hungary. On China's suggestion the council agreed to meet again later in the day.

The Russians based their insistence on the Potsdam decision that only nations which signed an armistice with the defeated Axis satellites be permitted to write peace treaties with those nations. China and France, both members of the five nations council, were not armistice signatories.

Last night's meeting called to discuss final conference protocols and a communique, broke up after the delegations had spent three and one-half hours restating their previous positions, informed sources said.

## Ready Replies are Made by President

(Continued from Page One)

This has served three purposes: It speeds up his news conferences, provides a lot of news, and gets a lot of questions answered.

Sometimes, though, Mr. Truman feels he is not prepared to answer a certain question and says so.

So far no real damage has been done through Mr. Truman's answers which have given erroneous impressions of what he thinks or means.

Here's an example of how the White House feared a wrong impression might have been given.

When he returned to the White House from a week-end outing, the President met reporters who asked him about reports that there had been a lively cabinet session dealing with the atomic bomb.

Mr. Truman said the reports were not correct, that the meeting simply produced a discussion on what administration policy was to be on the subject.

The President went on to say that in the final analysis he and he alone would take full personal responsibility for the future use and development of atomic energy.

Immediately this statement received front-page play in newspapers and top spot on radio broadcasts. The next day the White House, explaining it didn't want the wrong impression placed on the president's meaning, said that what he really intended was this:

That he was taking the responsibility of deciding what recommendations he should make to congress. But he'd leave it up to congress to decide what should be done about atomic energy.

## Possible Eight Million Be Unemployed

(Continued from Page One)

Pointing to prospects of about 8,000,000 unemployed by spring, Snyder said the country must "face the fact that substantial unemployment lies ahead."

"That, in itself," he continued, "will not stamp reconversion successful or unsuccessful. It takes time for industry to turn around—to stop work on munitions and retool for work on peacetime products."

Asserting that the nation has "come a long way in reconversion," Snyder added:

"The initial shock is over. Most war contracts have been cancelled. Most lay-offs are behind us. Though the government is withdrawing from the market on a record scale, there is an offset in pent-up, record-breaking demand for goods of all types by consumers and producers both at home and abroad."

Of the future the reconversion chief said:

"We are not seeking to go back to previous levels of employment or output. We are seeking to expand our output rapidly to 40 to 50 per cent above former peacetime levels."

## Nomination is Disapproved

WASHINGTON, Oct. 1.—(P)—President Truman nomination of Raymond S. McKeough, former Democratic house member from Illinois, to the U. S. Maritime Commission, was disapproved today by the Senate commerce committee on a 10 to 7 vote.

If the Senate follows the majority report it will be the first such action on a nomination by Mr. Truman since he succeeded to the presidency.

Chairman Bailey (D-NC) told reporters after the closed meeting he voted for confirmation but declined to disclose how other members voted.

Bailey said the adverse report was "not due to his (McKeough's) connections" with the CIO-Political Committee, but asserted that it was "due to the intense rivalry among factions of seaman's unions."

## Is for Five Billion In Tax Slash

(Continued from Page One)

al debt and the responsibility to \$5,000,000 government bond holders demand careful consideration in tax writing.

The secretary declared that in no event should tax reductions next year go beyond \$5,000,000,000.

In advance of Vinson's appearance, Republican tax leaders voiced demands for more substantial reductions than they expected the administration to present.

The Republicans want a slash of at least 20 per cent "across the board" on income levies. They tied to their plan a demand for retrenchment in federal expenditures.

Vinson said tax liabilities for the calendar year 1946 under present law are expected to total \$32,500,000,000.

A \$5,000,000,000 reduction would put 1946 revenues at \$27,500,000,000. This compares with the 1944 tax collection peak of \$46,500,000,000 and prewar collections running about \$5,000,000,000.

Vinson did not go into budgetary needs of the government for the 1947 fiscal year beginning July 1, 1946, but he previously had said the postwar budget, in his opinion, would exceed \$25,000,000,000. Wartime annual expenditures shot up toward the \$100,000,000,000 mark.

WASHINGTON, Oct. 1.—(P)—

W. Stuart Symington was sworn in today as surplus property administrator and immediately announced a policy of decentralization he said was aimed at speeding up disposal of surplus goods.

The oath of office was administered by Supreme Court Justice William O. Douglas, long a friend of Symington. The ceremony was witnessed by a group of government officials and members of congress.

Symington, a former St. Louis businessman, takes over direction of the agency from the old three-member surplus property board, of which he was chairman. The switch to a single administrator, recommended by President Truman, was approved by congress last week.

## President Sees Burton Sworn in

WASHINGTON, Oct. 1.—(P)—President Truman made an unprecedented visit to the Supreme Court today to see his first appointee, Harold H. Burton of Ohio, sworn in as an associate justice.

Veteran court officials said that in the court's 155-year history no president had appeared in the court room while serving as chief executive.

Mr. Truman stepped into the yellow marble courtroom from a side entrance eight minutes before the black-robed justices marched to their bench at noon.

Court attaches escorted Mr. Truman to a mahogany counsel table directly beneath the bar and a few feet from Chief Justice Stone. From this point in front of the jammed courtroom he had an unobstructed view of the brief ceremony by which Burton, Ohio Republican with whom the president served in the senate, became a member of the high tribunal.

## Detroit in the Throes of Pre- W. S. Fever

Delirious Doings in  
Autotown: a Green-  
berg-for-Mayor Effort  
Started; Hotels Full

By Sid Feder

DETROIT, Oct. 1—(P)—Auto-  
town was a somewhat series-silly  
city today.

Probably the hottest of all dia-  
mond-daffy burps — not except-  
ing Brooklyn — when things are  
going along just normal-like, De-  
troit let its hair down and blew  
the roof off for fair this time.  
And some of the folks were even  
thinking of a Greenberg-for-mayor  
movement for that grand slam  
Hank hammered to win Detroit's  
seventh American league pennant  
for the Tigers in St. Louis yester-  
day.

But, in spite of the delirious do-  
ings, there were still a lot of  
headaches — and not of the hang-  
over variety — in the way of set-  
ting up the stage for the start of  
the World Series with the Chicago  
Cubs Wednesday. The toughest  
touch was not only in how to fit  
300,000 customers in a 55,000-seat  
ball park, but also how to cram  
thousands upon thousands more  
into hotels already bulging at the  
seams.

The local inns are so loaded,  
in fact, that two lake steamboats  
have been tied up at the Wood-  
ward avenue docks to handle the  
overflow — and they already have  
the standing-room only sign out.

Naturally, there aren't going to  
be 300,000 in Mr. Briggs' ballyard  
when the Tiger and Chicago Cub  
curvers — presumably Lefty Hal  
Newhouse and the \$100,000 arm,  
Hank Borowy, for the opener —  
walk out there for the kickoff at  
1:30 p. m., eastern standard time,  
day after tomorrow. But that  
was the number of requests.

All over capacity were turned  
down, so there probably will be  
between 54,000 and 55,000 in the  
seats out at Michigan and Trum-  
bull avenues for the opener of the  
usual four-out-of-seven set.  
And there's a chance that the De-  
troit series crowd record — 55,189

## Winnah and Champeen!

for one game in 1940 — will be  
surpassed.

Back of Newhouse, Manager  
Steve O'Neill's going to run into  
a pitching problem when he re-  
aches into the trunk for succeeding  
servers. However, if Newhouse  
loses the first game — and he's  
a 10 to 11 favorite not to — the  
Tigers' elbow in the second  
scuffle is slated to be Virgil (Fire)  
Trucks, the right hand fastballer  
fresh out of his sailor suit. If  
Hal comes home a-galloping, the  
switches between now and then,  
will be Stubby Overmire, the  
stumpy southpaw who looks like  
he's running in a ditch. The third  
game thrower will be which ever  
of these two fellows has the sec-  
ond day off, and Dizzy Trout, the  
double-duty workman, will go in  
the fourth game in Chicago Satur-  
day.

The pricemakers were as con-  
fusing as an out of order traffic  
light in posting odds for this set.  
The prices ranged all the way  
from Detroit favorite at 10 to 13,  
all the way up to one fantastic  
figure making Chicago 2 to 5 to  
win its first world crown since  
the Cubs trampled the Tigers way  
back in 1908. This one, however,  
was quoted in Pittsburgh after the  
Cubs' pennant clincher Saturday  
and Pittsburgh's strictly a Nation-  
al league city.

The still-celebrating Bengals got  
back from St. Louis and the Cubs,  
who returned to Chicago for clean  
shirts and fresh razor blades, are  
due in to work out on the series  
greensward tomorrow. Unless  
Jolly Cholly Grimm goes into his  
juggling act — without his banjo  
— at the last minute, his Cub line-  
up against Newhouse's southpaw  
shoots will present three left hand  
hitters — or four, if husky Paul  
Gillespie draws the catching as-  
signment — and will have the  
veteran Roy Hughes at shortstop  
instead of the none-too-steady  
play of Lem Merullo.

O'Neill is expecting to go with  
his regular Tiger cast, which  
sports, in addition to a long-ball  
batting punch, an all-30-year-old  
infield. In fact, with only Cub  
first-sacker Phil Cavarretta, at 29,  
under the 30 mark. These prob-  
ably are the two most ancient  
inner garden foursomes ever to get  
together in the fall frolics.

While O'Neill's going to be  
reaching for the aspirin bottle for  
a pitching headache Grimm has a  
handful of trumps to match any  
aces — any, that is, except Lefty  
Hal. Back of Borowy, there are  
guys like Hank Wyse, with 22

wins, and Claude Passeau, or  
older Pappy Prim or even old  
Paul Derringer, who's won 16.

## Sports Roundup

By Hugh Fullerton, Jr.

NEW YORK, Oct. 1—(P)—It's  
just a coincidence, but a good one  
that the managers of the All-star  
teams in the navy world series in  
Hawaii are Schoolboy Rowe, who  
rose to fame with the Tigers and  
Billy Herman, for many years a  
Cub. . . They have some players  
the real World Series contenders  
could use — Dick Wakefield, Ned  
Harris and Fred Hutchinson (De-  
troit) and Charley Gilbert, Whitey  
Platt and Wimpy Quinn (Chicago).  
... Although he's just 18 years  
old, Donald Godek is listed as one  
of 16 ex-GIs on the Temple U.  
football squad. Do enlist in the  
army when he was 14 and  
served four months before his age  
was discovered. . .

### Monday Matinee

Titan Hanover, Hambletonian  
winner, will start at Lexington,  
Ky., tomorrow or Wednesday in  
an effort to beat the world three  
year old record of 1:58 he sat at  
Duquoin, Ill.

### Guess Again

(A final look at the World Se-  
ries pitchers)

Al Benton, Tigers — Returned  
to baseball from the navy yth is  
season. Won five games, then  
broke a leg. Ran into an August  
slump that damaged his record.  
... Virgil Trucks, Tigers — Just  
out of the navy and perfectly will-  
ing to give the Cubs his blues. . .  
Jim Tobin, Tigers — A Cub jinx  
for years in the National league  
but he wasn't this year before  
leaving the Braves. . . Claude  
Passeau, Cubs — Last spring he  
was a doubtful asset because of  
bone chips in his right elbow. Now  
his elbowing has helped the Cubs  
into the chips. . . Ray (Pappy)  
Prim, Cubs — Was a righthander  
but switched to southpaw pit-  
ching because of a burn on his  
hand. Has been burning up the  
league late in the season. . . Hy  
Vandenberg, Lon Warneke, Ray  
Starr and Paul Derringer, Cubs—  
what? Those old guys?

At the beginning of the Japan-  
ese war on China, the highways  
in China totaled 67,000 miles, less  
than one-fourth of which were  
surfaced.

## Gold-Plated World Series Anticipated

Two of Baseball's top  
Attractions in Two of  
Nation's Best Baseball  
Towns Means Money

By Jack Hand  
Associated Press Sports Writer

Hank Greenberg's \$300,000 home  
run, welcomed with itching palms  
by both the Detroit Tigers and  
Chicago Cubs, has set the stage  
for a gold-plated World Series.

Presence of the Bengals and  
Bruins, two of the game's top  
attractions in two of the nation's  
best baseball towns, assures a  
player pool of near-record pro-  
portions.

The players could split approxi-  
mately \$500,000 on a 60-40 basis  
which would mean a generous  
slice of three hundred grand to  
the victors. A Washington pen-  
nant would have made a deep  
gouge in the player melon because  
of the limited seating capacity of  
Griffith stadium.

Greenberg's lusty clout into the  
left field stands at Sportsman's  
park in the ninth inning of yester-  
day's pennant ball game climaxed  
several weeks of anxious  
waiting by Tiger patrons who  
had seen their favorites accused of  
"backing in" to the flag.

When Virgil Trucks weakened  
in the sixth, Steve O'Neill re-  
placed the recently discharged sailor  
with his No. 1 boy, Newhouse.  
That was a big decision to make  
for if it had failed, Steve would  
have had to string along with a  
second line pitcher in the money  
game with the Senators. It did  
not fail. Newhouse came away  
with his 25th victory, 6-3 and the  
flag.

George Stinewiss of the Yanks  
surprisingly won the American  
league batting title yesterday  
with three hits in New York's  
12-2 romp over Boston, advanc-  
ing to .309, one point ahead of  
Chicago's Tony Cuccinello who  
was rained out of a final double-  
header with Cleveland. The Yan-  
kees finished fourth, lowest since  
1925, and worst in the Joe Mc-  
Carthy regime.

Chief interest in the National  
league's final day was the hitting  
duel between Phil Cavarretta of  
Chicago and Tommy Holmes of  
Boston, won by the Cubs' first  
sacker .355 to .352. Two safe  
blows in a "mean nothing" 5-3  
decision over Pittsburgh saved the  
day for Cavarretta.

Holmes collected four hits al-  
though his club was shut out 1-0,

Giants in a 13-inning first game.  
But the Braves' left fielder was  
horsecollared in the second con-  
test, a 2-2 tie called at the end  
of seven frames because of dark-  
ness. Nap Reyes' homer copped  
the opener.

Harry Brecheen added another  
victory to make his leading seas-  
on record 15-4 by hurling St.  
Louis to a 3-2 edge over Cincin-  
nati, a contest won in the 12th  
by Del Rice's first big league ho-  
mer.

Ed Stanky set a new league  
record by drawing his 148th base  
on balls as Hal Gregg hung up  
his 12th decision, a 4-1 Brooklyn  
triumph over the Phillies.

The Dodgers took third money  
in the league, behind the abdicat-  
ing champion Cardinals and Pitts-  
burgh rallied to take fourth. Mel  
Ott's Giants lacked the pitching  
to make a run of it and settled  
for fifth, followed by the Braves,  
Reds and Phillies who finished 52  
games to the rear of the Cubs.

## Course For Turkey Raisers October 11-12

Will Be Held In Columbia; Program Listed

The Missouri College of Agriculture extends a cordial invitation to all turkey growers and breeders to attend the third annual turkey growers short course that will be held in Columbia, Missouri on October 11 and 12. The program for the two days short course is as follows:

**Thursday Morning, October 11.**  
8:30 a. m. Registration.  
9:00 a. m. Address of welcome, Dean E. A. Trowbridge, Missouri College of Agriculture.  
9:30 a. m. An improvement plan for turkeys. Frank Moore, United States Department of Agriculture, Washington, D. C.  
10:15 a. m. Improving Turkey breeding stock by selection and pedigree breeding. Dr. J. N. Thompson, Cedar Rapids, Iowa.  
11:00 a. m. The work of the National Turkey Federation. M. S. Small, Secretary, National Turkey Federation, Mount Morris, Illinois.

**Thursday Afternoon**  
1:15 P. M. Demonstration of Turkey selection. Dr. J. N. Thompson and Frank Moore.

2:00-5:00 Turkey flock selection directed by Frank Moore, Dr. J. N. Thompson, and Harold Canfield.

5:00 p. m. Meeting of Turkey growers.  
6:30 p. m. Turkey dinner—Daniel Boone hotel.

The Turkey outlook, Gordon Nance, Extension Economist, Missouri Agricultural Extension Service.

Problems of Missouri Turkey growers, General discussion.

**Friday Morning, October 12**  
8:00 a. m. Flock selection, directed by Dr. J. N. Thompson, Frank Moore and Harold Canfield.

11:00 a. m. Meet in room 100 Waters Hall. What kind of a Turkey does the market want—now and in the future? J. C. Gibson, Merchandise Manager of Poultry, Kroger Grocery and Baking Company, Cincinnati, Ohio.

1:15 p. m. Common Turkey diseases and their control, Dr. A. J. Durant of the Veterinary Department.

2:00 p. m. Keeping Turkeys healthy by proper nutrition, Dr. A. G. Hogan, Agricultural Chemistry Department.

2:45 p. m. Pullorum disease and its control. Dr. A. W. Uren and Dr. A. J. Durant.

a. Discussion of the disease.  
b. Practice in drawing blood samples.

c. Instructions in preparing and shipping blood samples.

5:00 p. m. Written examination of pullorum disease, flock selection and the National Turkey plan for those who plan to select turkey breeding stock or draw blood samples.

Turkey production in Missouri has continually increased since 1930. Our position in the future as one of the leading turkey producing areas depends upon the progress that will be made in flock improvement, disease control, production, and marketing.

A plan of organized flock improvement will be emphasized in this short course and this plan should be helpful to growers in maintaining superior breeding stock. Because of our favorable climate and range conditions we are an advantageous position to produce hatching eggs and poults to satisfy the rapidly expanding demand for superior breeding stock is maintained.

## Planned Shelves

Top: Dish cupboard. Bottom: Storage space for mixing utensils.

## Planned Shelves Increase Storage Space In Kitchens

Cabinet shelves spaces so that they fit the dishes and utensils to be stored are one of the more important items considered by Missouri homemakers who are planning to remodel, or to build new kitchens.

In many cupboards more space is wasted than is used because shelves are stationary and all of the same width and height, according to Miss Louise Woodruff of the University of Missouri College of Agriculture. Often, space is left above stored articles so the homemaker can reach those on the back row. The waste space may be utilized by making shelves only wide enough to accommodate one row of equipment of supplies, placed as close together as materials on them permit. It is thus easy to reach all articles without reaching over others.

Shelves vary in width according to articles stored, being no more than one inch wider than the widest article. At least one inch must be allowed between the tallest articles and the shelf above. If, however, an article such as a bowl must be lifted out of a stack, more space is necessary.

In new cupboards, shelves may be made adjustable by having closely spaced supports of metal or wood for these shelves inside the cupboard. For cupboards already in use one or two inset or step shelves may be placed between each set of regular shelves. Wide articles are then placed on the original wide spaces and small articles on the narrow shelves above. All stored articles are thus on the front row where they can be easily reached. Inset shelves may extend only part of the length of a shelf allowing for the storage of a tall article at one end. Racks on the cupboard doors for small articles fill in the horizontal space provided by narrow- ing some of the shelves.

The cost of remodeling cupboards is not great. Scrap lumber may often be utilized for inset shelves and they may be made easily with home lumber. Spacing and the size of shelves need to be planned to fit individual needs. Suggested measurements, and other help in planning cabinets may be obtained from County Home Demonstration Agents of the Missouri College of Agriculture.

## Sedalian Had Part In Program

Mrs. Ralph Dow, chairman of the Pettis County Home Economics Extension Council, and Mr. Thomas J. Raines of the Pettis County Farm Bureau board, appeared on the program of the State Extension Advisory conference in Springfield on Friday, September 21.

This meeting included all counties from the southwest part of Missouri. The talks and discussions centered around Farm and Homestead Improvement, Balanced Farming, Rural Youth and Rural Policies.

The Rev. Gene W. Wetherell, Extension minister to the rural churches spoke in the afternoon concerning the work and place of the rural church in farm life.

The 1946 advisory committee to the State Extension Service was elected by those present at this conference.

Pettis county was represented at the meeting by Mrs. Dow, Mr. Raines, Mr. and Mrs. C. A. Arnold, Dorothy Bacon, and J. U. Morris.

## On The Honor Roll Of 4-H Clubs

The 4-H Honor Roll for 100% completion and records in before the deadline lists Eden Valley, Bunker Hill, Allen, Scott, and Bothwell Busy Bees Sewing club.

Honorable mention goes to Maplewood who have 17 members carrying 27 projects and have all but three records in by September 20. Their members are Mrs. William Williams, Mrs. W. P. Banning, Mrs. John Sutherland, Mrs. John Harris, and Mr. M. C. Ford. The Eden Valley club, led by Mrs. Gilbert Johnson and Miss Ada French was composed of six girls in clothing projects. Bunker Hill club, led by Mrs. Otto Vajen and Robert Oerlich, had nine members carrying 14 projects. Allen had seven members carrying 22 projects. Their leaders were Mrs. Fred Weikal and Mrs. George Lewis.

The Scott girls were led by Mrs. Joe Kabler and were clothing members.

The Bothwell Busy Bee Sewing club, led by Mrs. A. B. Burke was composed of five girls and two boys who made a total of 51 articles. The boys as well as the girls made towels, laundry bags, pin cushions, pot holders, and aprons. These members completed their clothing 1 project early in the summer and are now completing other projects.

## To Estimate Value Of 4-H Work Records Must Be Kept

4-H members often wonder why they must submit records to their leaders and the county extension office, but the following story tells what happens to part of them.

Some members who turned in records met certain qualifications on age and period of club work and were selected as county winners eligible to compete in the state contest for a trip to the National Club Congress in Chicago.

For clothing records Mary Sue Monsees of the Striped College club was selected. Last spring she made for herself a formal for school parties, and this fall made a suit from a man's suit and made her accessories to go with it. In addition she made several other garments.

Ruth Romig of the Dresden club was selected for the canning award. Ruth has canned 300 quarts of fruits, vegetables, and meat this year and has done it by herself. She has had five years of food preservation work in addition to having completed eleven other projects in her eight years of club work.

**Prepares All Meals**

In the food preparation project, Rose Alice Wood of Beaman had the best record. She has prepared all the meals in her home since last winter when her mother passed away. These meals included practice in feeding farm hands as well as guests.

For all-around club work including judging and demonstration work, Emily Banning of Maplewood was named the winner in Girl's Record contest. Emily completed twelve projects in her six years of club work. She has presented many demonstrations, entered judging contests, and exhibits and usually came out with a blue ribbon indicating high quality products. Her 4-H record also shows several offices having been filled by her services.

Boys entering the contests for trips to the Congress include Sam Abbey of the Houstonia club who is Pettis County's only member eligible on the coit contest sponsored by the Horse and Mule Breeders.

**Uses Electrical Equipment**

Bobbie Lewis of the Allen Cictory club, who has helped install and use an electric milker and milk cooling unit qualified under the Rural Electrification contest. Other activities to Bobbie's credit

were the use of electrical equipment including the operation of the La Monte moving picture machine this past summer. From that same club Robert Weikal was selected for the county medal and \$15 scholarship to a tractor short course at the University of Missouri. His record on farming operations will make him eligible to compete for a trip to the Congress, too.

Farming operations also qualified T. H. Gibson of the Oak Point club for the same privilege based on soil conservation practices he helps his father use on their farm.

Those members also receive medals provided by the various firms sponsoring the contests.

Medals for the county winners and a chance at war bonds are the awards in the following contests for which county winners were selected.

Mary Ruth Booth of Quisenberry was the winner on the frozen foods contest. Mary Ruth not only canned and stored but preserved some food for her family by freezing fruits, vegetables, and meat. Her record will go in to state competition for a \$50 war bond.

Stella Sperber of the Walnut Grove club produced an abundance of food through her practice of good garden principles. She is eligible to compete for one of the eight \$25 war bonds.

**Received Medals**

Other garden members who will receive medals but were not qualified to be in state competition are Mary Kathryn Scotten of Bothwell, Billy Franklin of South Abell, and Max Birdsong of Beaman.

Max is also eligible for a medal as county winner of the dairy heifer project. The dairy cow winner is Howard Stevens of the Striped College club. These boys will be in state competition for which the awards are eight \$25 bonds. Donald Harsch of Arator with his record on the production of 200 turkeys will compete in the state poultry achievement contest in which four \$25 bonds and a trip to the National Congress are the state awards in meat animal production in which Junior Snow of Walnut Grove was named Pettis county winner. His records include an Angus steer and

a litter of eight pigs as the meat he produced this year.

The girl competing for a gold watch is Ruth Evelyn Green of the Ringen Brushy club who was named winner in the Home Grounds Beautification Contest. She planted and developed an attractive yard from an old unsightly woodlot.

**Two Others Outstanding**

Two other outstanding 4-H boys in Pettis county were named to enter state contests for which there are no county medals. They are Wayne Hoehns of Ringen Brushy on 4-H Project Achievement and Ira Williams of Houstonia on 4-H Leadership. Wayne in his eight years of club work has completed 16 projects on which he has earned \$112 in prizes and produced \$2548 worth of food. That includes 400 birds in poultry, 20 hogs, and 12 acres of corn to feed them and three colonies of bees and 1 1/2 acres of garden to help feed his own family.

Ira's leadership record sums up to four responsible offices in the club in the past four years and much of the responsibility of keeping the club going. Twice this year the community leader of their club moved away and it fell to Ira as club president to go on with the management of the group.

## Wyckoff to Meet Schnabel Tuesday

Tuesday night the Pettis County Post No. 16, American Legion will present its weekly wrestling match bringing together two wrestlers who are anxious to meet each other. This is due to the results of a team match two weeks ago. Marshal Estep, Sturgeon, Mo., defeated in a match with Jerry Meeker, Columbus, O., and also defeated by Meeker and Larry Tillman of Muskogee, Okla., two weeks ago asked for a re-match.

Estep defeated Larry Tillman last week after challenging him, and immediately challenged Meeker, declaring he desired to "even things up." The wrestling postmaster promises the fans plenty of action in the main event which is for the best two falls out of three with a 90-minute limit.

Ken Fenelon, Dubuque, Ia., who entertained the fans well last week in defeating Amir Badui of India, is coming back this week to meet Roy Gardner of Dallas, Texas in the semi-windup. Two falls out of three with a 45-minute time limit.

Lee Wyckoff of Nevada, Mo., the former holder of the heavy-weight title, who appeared here last season comes to Sedalia this week to meet Otto Schnabel of Los Angeles-Detroit.

The matches start promptly at 8:30 o'clock in the State Guard armory.

## Rally Dinner By Presbyterians

Members of the Broadway Presbyterian church school observed the rally season with their annual dinner Friday evening. One hundred and sixty persons enjoyed a fine dinner and program in an atmosphere of good fellowship and enthusiasm. Rev. Thomas Croxton, pastor of the First Baptist church, gave an inspirational talk on church loyalty under the banner of the cross of Christ. He stressed the importance of love, cooperation, and personal acceptance of responsibility in the life work of the church.

James Watts, son of Rev. J. W. Watts, pleased both young and old in the playing of two trumpet solos, accompanied on the piano by his mother. Dr. B. E. Broadus, Mrs. Martha Jean Anderson, and Mrs. J. W. Watts, acted as judges for the awarding of prizes for class table decorations.

Prizes were awarded as follows: Primary department: first, primary group; second, beginners group. Junior department: first, Miss Burrell's class; second, Mrs. Croxton's class. Intermediate department: first, Mrs. Curmutt's class; tied for second, classes of Mrs. Miers and Mrs. Hall. Youth department: first young people's class; second, Westminster class. Adult department: first, Women's Bible class; second, Men's Bible class. The table decorations were judged on three points: effort by teachers and pupils, Christian teaching value, and beauty. Members of the Builders' club, formerly a Sunday school class, served the dinner. Clyde Heynen, general superintendent of the church school, presided. Rev. Herman M. Janssen is pastor of the Broadway church.

## Homemakers Tell of Canning

The Walnut Grove Homemakers club held its September meeting at the home of Mrs. Ralph Mosby. Mrs. Charles Snow presided. It was opened with the singing of, "Brighten the Corner Where You Are." Eight members answered the roll call by telling how much they have canned this season.

Mrs. Charles Riley read the news letter, after which Mrs. Albert Runge gave a demonstration on the use of sewing machine attachments.

A handkerchief shower was given Miss Dorothy Bacon.

The October 25 meeting will be with Mrs. Albert Runge.

## Three Stolen Cars Recovered

Three automobiles stolen in Sedalia in the past few days have been recovered and their owners have been notified according to a report given by the police.

The Oldsmobile sedan of F. R. Staley, stolen from in front of his home, 206 East Fifth street, Friday afternoon, was recovered at Lees Summit, Mo., by the state patrol. The driver of the car purchased gasoline at the Windsor junction of highways 52 and 65 Friday afternoon and then drove off.

## A Monument That Will Live

EVANSTON, ILL.—Citizens of Evanston have selected a beautiful and imposing monument to memorialize their war dead. Shown above, the \$75,000 granite monument will be paid for by public subscription. George H. Tomlinson, president of Evanston War Memorial, Inc., reported that 49 out of 50 parents who lost sons in World War II felt that this type of monument is the most appropriate memorial. The names of all Evanstonians who died in the last four wars will be inscribed forever on the obelisk.

## Rev. Campbell in Report on Funds

At the Southwest Missouri conference of the Methodist church in Kansas City the Rev. H. U. Campbell, pastor of the Fifth Street Methodist church and the Rev. J. Fred King, pastor of the First Methodist church, were elected to the committee on house minutes.

In the Methodist Youth Fellowship Miss Betty Hausam of this city, was elected chairman on world friendship.

Dr. Campbell, conference treasurer, reported breaking of all previous records by churches in the Southwest Missouri conference in a church fund mark, reporting a total paid in for a twelve month period of \$335,010.08. This was at the Grand Avenue Methodist temple where the sessions are being held.

That total will be increased only slightly, Dr. Campbell said, as only four of the 246 churches involved had not reported when the figures were compiled. A year ago at the meeting in Joplin the total of all money collected was \$114,040.34 when the books for the year were closed.

The unprecedented increase resulted, Dr. Campbell said, from the payments to the 25-million-dollar "Crusade for Christ" fund adopted by the general conference at its meeting in Kansas City early in 1944. All giving to the various projects of the church increased, the jump in payments for benevolences alone being \$5,000 more than the preceding year.

## Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics. No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back.
